

The Battar Training Camp (Mu'askar Al-Battar)

The 7th Edition

March 2004

The Martyr Al-Battar Training Camp

The Caravan is Moving and the Dogs are barking

Targets inside the cities

Program of the Special Forces

Al-Battar Training Camp

A militant publication by the militant committee of the Mujahidin in Arabian Peninsula
March 2004

Peace be with you-

At this time when we see the cross worshipers are protecting their religion and protecting their people. I am amazed that the nation of Islam is still asleep while its children everywhere are being killed and its land is shrinking.

Islam is the faith of unity and we are ordered to support Muslims. What aren't you supporting Islam and the Muslims?

Don't you care about your honor? Don't you care about the glory of the past that was made by our grandfathers?

(Poem)

I ask about my people and their courage. Where are they when the enemies are near?

Come and destroy the aggressors so that we can erase the shame and embarrassment

In this edition you'll read the following:

- [Leading book](#)
- [The caravan is moving](#)
- Winning sword
- [Uzi](#)

- [Beautiful words](#)
 - Security and intelligence
 - [Public Relation activity](#)
 - Guerrilla war
 - [Targets inside the cities](#)
 - The training camp
 - The program of the Special Forces
-

Opening

And the battle is still going

By: Abu Thabit Al-Najdi

Thanks to God, the most merciful. Prayers and Peace be on Mohammad - the prophet of God.

Our enemies every day have confirmed with their deeds and their words that bad realities of our situation. They put their plans in words then in actions and make it into reality without any challenge or obstacles. Nothing is interfering with their aggression against Islam and the Muslims.

If you look at the world you would see the infidels are racing to prepare their power. They are actively making weapons and training troops. Here is Korea, India and the state of the Jews that is trying to become the super power in the world. Their last crime was the assassination of Shaykh Ahmad Yasin in Gaza. They are trying to turn off the light of God and to kill the Jihad and its leaders. This is a mission that the infidels have worked long to achieve.

Yes they were able to kill Shaykh Ahmad Yasin but his death became the fuel for the Jihadi movement. It is feeding the anger and encouraging the youth to hate the enemy. God will use this to bring many faithful that will carry their weapons to raise the banner of our faith.

God will send them someone that punishes them. Someone like the Shaykh Ayman Al-Zawahri who in a statement directed to the Pakistanis has scared America and showed the world America's weakness. While the Americans declare that they are close to capturing him in Wazirstan, we hear his voice on Al-Jazeera TV encouraging the Pakistanis to work against this operation to make it a failure. There has been great reaction to his message. Many of the Muslim scholars in Pakistan have come out and issued Fatwas against joining this kind of operations against Mujahidin and Fatwas against the Pakistani soldiers that support the infidels in their war on Islam. Many of these scholars were taken to jail for speaking the truth against the crusaders and the collaborators.

I want to take this opportunity to remind our brothers in Palestine to be careful and aware of those liars, for they are the enemy of the truth.

We ask God the almighty to have mercy on the soul of Shaykh Ahmad Yasin and we ask God to protect the Shaykh Usama, the Mulla Omar, the shaykh Ayman and all the leaders and al-Mujahdin. We ask Him to grant us victory over the infidels.

The caravan is moving and the dogs are barking

By: Abu-Mohammad Al-Maqdisi

God has said that He will grant success, guidance to truth, vision and blessings for those that choose Jihad for the glory of God.

True Mujahidin are knowledgeable and wise with a clear vision. Every one should go to Mujahdin to find the right answer because God gave them wisdom as the fruit of Jihad.

The Mujahid has to study his situation and his surroundings the way he studied Jihad. God gives the Mujahid the ability to see and hear many times better than the public.

Mujahdeen do not need scholars that are not from their organization. For their scholars are the smartest and the clearest on the issue of Jihad and fighting. Their ability comes from Jihad and the battlefields where people come to see the truth of God and disregard all temptations of life. They just cannot be wrong because of that background.

The leaders and Shaykhs of Jihad are the only people that value the interest of their Jihad and the benefits and the fruits of their targets.

They do not need the guidance of those that are sitting low. They do not need the opinion of those that are under the feet of the regimes and their western and American masters or those that were defeated by the culture of globalization and the accusations of terrorism. Those immoral journalists, seculars and intellectuals that speak to us from the satellite channels or from the lines of the articles in their secular papers, are wrong.

Each time the Mujahidin do a heroic act of Jihad they start analyzing and talking through their lame prospective, they blame and accuse Jihad. They say Mujahidin are ignorant and they say that these acts will make America fight Islam. They say that jihad will over shadow the crimes of Israel. They say that AlMujahidin are drawn to Jihad because they are shallow and that there are mysterious hands that are controlled by the Zionist movement or other conspiracies.

You are still on earth and you sold religion and honor and integrity. You have denied your faith and Jihad and stood ashamed of its teachings and laws. Many of you wish to remove from the Koran verses that talk about jihad. What right do you have to talk about Jihad and evaluate its fruits or about the martyrs and the heroes? Is it possible that the mother that is pretending to lose her child become more real and truthful than the mother that lost her child for real?

Listen losers, The Mujahidin do not need your advice that is defeated under the feet of the fake western culture. They do not need your analysis that is low and broken under the boots of the regimes of the collaborators and their masters in Washington, London, Paris and Berlin. How can you while most of you are covering for your masters in the White House, 10 Downing Street and the Elsie Palace, you keep saying that their war on Islam is not a crusade but a war on terror that has damaged the picture of Islam, while your masters contradict you in their statements. Shame

on you dwarfs, what do you know? They said it, it is a crusade and it has been declared on Islam the faith of terrorism, those words were repeated by their generals that describe Muslims as worshipers of Idols and devil. It was announced by their courts and organizations that has declared a war on the Hijab (head cover) that is considered terror and a threat to secularism. You choose to close your ears and eyes and insisted on forging the truth.

The Mujahdin do not need you, half men and with no resolve. They do not need any advice on Jihad from scholars who are paid for and defeated. They do not need to ask you if it is okay with you or if their Jihad is compatible with you thinking. No, they do not need that. They have all the wisdom and the vision that they need. Die in your anger, and continue your criticism of the Mujahidin. You cannot destroy their resolve; your poisoned pins would not affect their Jihad. Nothing will affect them.

But you, good Mujahidin, the best answer to those bad people is ignoring them and to stay with the Jihad and to continue to kill and fight every enemy of God. Disregard their opinion, the caravan is going and the dogs are barking. They enjoy the barking.

Their interference with Jihad is not something new. Quraysh (name of a tribe) used it against the prophet and the faithful. They tried to use events or targets that were chosen by the Mujahidin to give a negative picture of Jihad.

Quraysh tried to make the Muslims look bad and they harassed the Muslims for killing, taking money and taking prisoners in a month where doing this is not permissible.

The Muslims know and never denied this, they do not need the infidels to teach them nor were they bothered by the criticism. What the infidels are still doing against God is much bigger of a crime than fighting in the wrong month. The Muslims were not bothered by criticism because they know that the infidels are the ones that criticism should be directed toward, because they are committing and planning and insisting on crimes. The Mujahidin should not be bothered by the troubles caused by the enemies of their Jihad that criticize their targets and the timing of their operations to make them look bad. The crime of stopping the jihad is much bigger than any crime that they accuse the Mujahideen of committing. If the Mujahideen make a mistake they do not need feedback from the infidels because they know better than anybody else what is right and what is wrong.

As Abu Firas (poet) said:

It amazes me how the wrong are trying to tell me what is right and what is wrong.

Mujahidin, be careful and do not get weak in front of the enemies of God. Do not let your Jihad be damaged when they try to make you look bad.

If they say that you have killed children and the prophet has spoken against doing that, you tell them; yes we know that the prophet has spoken against it. We never targeted kids, we have repented if we ever did that but you insist on the sin and the wrong. Tell them we do not need your advice. How can you speak on behalf of children and you are making them orphans and killed their fathers for being in Jihad. You have fought the faith of God while the Mujahidin have fought the enemies of God. You have killed the faith with your corrupt school curriculums that

taught them loyalty to you and taught them against their faith and Jihad.

If they say that by your acts in New York and in Washington you put America in control of the land of the Muslim by claiming that they are fighting terror against them and their interest, you tell them, when America was not on the backs of those countries? We did not cause this. We came to this world and the Americans were there for no reason or price for doing it. We just started making them pay for it.

If they say Israel is using your acts to intensify its terrorism against the Palestinians and destroy homes, kill kids and cut the trees, you tell them, does Israel need to justify that? And when did Israel stop its terror? Israel is an incubator of criminals that is sponsored by your masters in Washington. They have destroyed homes before our operation and the amount of destruction done by Israel is much greater than the towers in New York. Who are you trying to mislead?

If they say that by your attacks on Jews and Americans you have weakened the Arab regimes and damaged their economy, demolished development projects, scared away investors and tourists, you tell them yes, and this is exactly what we want. If we know that the hole in the ozone will weaken them, we would have worked hard on making it bigger. You are foolish, do you think we care about anything more than destroying and ending these bad and rotten regimes? The economy and development will come after the establishment of God's law.

If they say that by your attacks in Istanbul, you have embarrassed the moderate Muslims in Turkey and pushed them to the American and the European side, you tell them we want to embarrass those that sell their religion, praise Ataturk and their secularism made them deny their religion and criticize Jihad and build coalition with the enemy to fight terror. In recent history, Turkey has always worked hard to please Europe so it can join the crusaders coalition and has always been close to the Americans and Jews.

If they say that your terror was used to put pressure on the Arab regimes to implement reforms that are in the direction of secularism and changing curriculums for the benefit of globalization culture and love and brotherhood with the western infidels, you say yes, embarrassing those regimes is the ultimate goal of our jihad, we want to show their lies and make them stop hiding behind Islam while they opened their doors to secularism and the infidels in secret. They are still implementing reforms in curriculums to get closer to the infidels of the east and the west. Now they are doing openly what they used to do in secret and they are fighting the people of faith, the faith that feeds Jihad to please their American masters. The first step in defeating these regimes is embarrassing them.

If they say that you started the fire of hatred between the west and the Muslims and you started the cultural war and you made them refuse the Hijab in their public schools, you tell them yes, and this is our duty as Muslims to cut the ties between Muslims and their enemies. Refusing the Hijab in schools is a blessing for our girls that will purify them from mixing with corrupt culture and bad curriculum. This will wake up the Muslims and make them aware of the hatred of those infidels toward Islamic traditions that could encourage Muslims to create alternative Muslim schools. The war on Hijab is also a war on Islam. The war of cultures started long before the attacks and before Huntington and Fukuyama. This war existed since the existence of Infidels and Faithful. The crusades and the massacres against the Muslims by the Jews and Christians can be seen everywhere.

Also tell them that their criticism is wrong and baseless and is proven wrong by your masters. They have announced results of their statistics that show that interest in Islam by westerners is on the rise after the attacks on New York and Washington.

I end this with a testimony by one of those westerners that testified that Mujahidin are smart and know exactly what they are doing. In the UK's Independent Newspaper there was an article dated 11/21/2003 by an expert on the Middle East (Robert Fisk). He said that the attacks on British targets in Turkey are the result of joining the war of the American President on Terrorism. He says that we should not deceive ourselves about the mental capability of the attackers. They are capable of understanding the outside world. They new exactly what they were doing when they attacked the Australians in Bali. They knew that the Australians were against the war and the blame would fall on the Australian prime minister and the same applies to Italy. They knew about the demonstration against Bush's visit in the UK. Attacking the UK is not an easy thing and this is why they attacked British targets in Turkey. They know that Bush wants to justify his war on Iraq and this is why they are intensifying the attacks on the American forces in Iraq. They decided to destroy Bush and Blair, the British prime minister politically if not physically.

This is a sample of your masters' analysis. As I said before, the mujahidin do not need your opinion or the opinion of your masters. They have their own scholars and a great book is leading them. They do not need the guidance of the retarded and the defeated. God opens the eyes of the Mujahidin and gives them guidance and He makes their enemies ignorant and shallow. How can we pay any attention to their opinion or defeated analysis?

Al-'Ayna'

Poem

By: Hamad Al-Aslami

Brother, do not complain and cry about humiliation. How long you are going complain and cry
Can your soul heal by igniting my tears like you? Crying would not do any good
Do you think that crying can bring glory back? Glory has become poems and wishes
Tell me, do you need my advice? I asked you, so listen to my question
I'll die one death. Why shouldn't I die as a martyr?

The martyrs spirit will go up very high, god will put it in the highest level
He'll be flying with the birds of paradise, humming over the palaces
He'll be with the purest of God's creation; His neighbors will be the prophets and their friends.
I'll be able to see God as clearly as I can see the full moon
Seven things that the martyr will get, can you tell me what they are?
Your sins will be forgiven and your status will be very high
You will get comfort in the grave and you will enjoy the resurrection
You'll be crowned with respect and people far and near are going to respect you
The virgins are waiting for my coming, kissing them is my illness and Medicine
When I saw her eyes, the sweetness of her beauty lived in me
Her beauty is beyond description, God has poured beauty over beauty
I had many words to tell her, but they disappeared when my hands touched her hands
When I talked to her after I saw her I felt that the paradise is for me
I did not look at anyone but her when I could have looked at others
I did not write any poems for girls on this earth, I have nothing to do with them.
Without the perfume no man would have come close to her and praised her
If she came looking her best, I know that she is the devil under cover
Everyone was crying when they remembered women, while I am telling her poem
I ask God to give her to me, God never disappoints a faithful that comes to him praying

Militant Studies

Targets inside the cities

By: Abu Hajir Abd-al-Aziz Al-Manun

Introduction: The attacks inside the cities are considered a kind of militant diplomacy; this kind diplomacy usually is written with blood and decorated with body parts and gunpowder.

These attacks carry a political meaning related to ideological struggle; it is considered a message to several parties. Therefore it is very important to be detailed in selecting targets (Like the Attacks by Al-Qa'idah). A good example of this is the attacks by our 4 brothers, Those attacks by the heroes (Khalid Al-Sa'id, Riyadh Al-Hajri, Abd-al-Aziz Al-mi'shim and Muslih Al-Shamrani) was the beginning. Their choice for a target was a great success. The building belonged to the CIA. This was the spark that ignited our Jihadi youth and opened the eyes of the nation to the Zionist presence in the land of Mohammad.

Also the attack in east Riyadh in 2003 was a message to the enemy, telling them that here we are, we have attacked you before and we can attack you now, you cannot hide because we are after you and you cannot get comfortable in the land of Mohammad.

Also the attacks by our brothers; Ali Al-Ma'badi and Nasir Al-Sayyari that targeted Al-Muhaya on the Intelligence Center were successful too. This proves that the attacks are diplomatic messages written with blood and decorated with body parts and gunpowder.

The kinds of targets inside the cities

1- Targets with Ideological nature: It is not advisable to do any attacks against religious targets at the beginning of a Jihadi movement unless one of the following situations applies:

- When groups are involved in converting Muslims to Christianity like what happened in Yemen and what is happening in Iraq. Also in Saudi Arabia where Christians are trying to distribute bibles. In these cases they should be hunted down
- Intelligence Activity hiding under a religious cover. In the case when it is a Muslim that is under cover he should not be attacked because Jihad movement can get a bad reaction from the public and it can backfire.
- In the case when some priests and rabbies and religious figures attack Muslims or Islam like that American priest that cursed the prophet Mohammad, we ask God to bring our swords closer to his neck. Also when Sayid Nsair killed Kahana who cursed the prophet.
- In the cases where Christian and Jewish figures are conducting financial, moral and militant campaigns against the Muslims like the previous crusades.

2- Financial targets: The goal for attacking these kinds of targets is to shake the security and the environment for financial growth like attacking the oil pipelines in Iraq that prevented foreign companies from joining in stealing the Muslims fortunes. Also one of the goals is to get foreign investors to get out of the local market. Also, the affect of these attacks on the financial powers like the attacks in Madrid that damaged the crusaders economy. Here are some practical examples of these financial targets:

- Jewish and Crusaders investment in the lands of the Muslims.
- International companies.
- International Economical experts.
- Attacking imports from crusaders' countries or boycotting them.
- Attacking the crude materials stolen from the lands of the Muslims like oil carriers or pipelines.
- Assassinating Jewish people that work in financial field and teaching those that work with them a lesson.

3- Human Targets. We have to kill the Jews and the Christians. We have to tell everyone that fights Muslims that we are coming to kill you. We should not be divided by geographical boarders. The land of the Muslims is our land. We have to turn the countries of the enemies to hell the way they turned our lands to hell. All the cells, where ever they are should be active and disregard any boarders that were drawn by the enemy.

In this case, priority is for Jewish and Christian officials in the land of the Muslims and the goal is not to let them get comfortable. We advise you to target easy targets at the beginning and priority goes to the infidels that directly support the local rejecters of Islam. For example, the targets in Saudi Arabia should be the Americans first and the English second; in Iraq, the Americans; in Afghanistan, the Americans; in Alger, the French; in Indonesia, the Australians. The Human targets are in these categories:

- A- Jews- and they are divided in categories, for example The Jews of America and Israel and the Jews of the UK and France.
- B- Christians are ranked in the following order:

- Americans
- UK
- Spanish
- Australians
- Canadians
- Italians

These will also be divided into the following categories:

- Finance and businessmen, for money is important in this day and age.
- Diplomats, politicians, intellectuals and political delegations.
- Military leaders and soldiers.
- Tourists and all those that were warned by the Mujahidin.

Collaborators, they are good targets and they are ranked as the following:

- Those with close ties to the Christian and Jewish governments like Husni Mubarak of Egypt and the rulers of Arabian Peninsula and their advisors.
- The liberals and the seculars- who have harassed the faith.
- Spies and Intelligence, they are shielding and protecting the Jews and the strong-arm of the collaborators rulers.

The goals of targeting humans:

- 1- To provide clarification of the nature of the conflict. By targeting Christians and Jews it shows that this is a religious struggle.
- 2- To show the main enemy.
- 3- To cleanse the earth of these people and to deter others.
- 4- To spread fear in the enemy and this is a requirement documented in Koran.
- 5- To raise the moral of the Islamic Nation.
- 6- To destroy the image of the government that was targeted. After the 9/11 attacks, America's nose was in the dirt.
- 7- To disrupt the plans of the infidels, like the time when Italy refused to send troops to Iraq. Also like what happened in Spain where the challenger of the prime minister promised to pull the troops out the Iraq after the attacks in Madrid.
- 8- To punish them for killing the Muslims

The pros of attacks in the cities:

- 1- Raising the morale of the nation and of the Mujahidin.
- 2- Confirming the credibility of the Jihadi group in the society. People will be able to see and the media cannot lie to the public.
- 3- Forcing the regime not to cross red lines.
- 4- Testifying that there is no God But Allah and Mohammad is his prophet and for achieving unity.
- 5- The governments will lose their effective symbols.
- 6- Influencing the economies of those countries.
- 7- The Mujahidin gain experience and qualification that will make them leaders of the nation in the future.
- 8- Study and analysis of mistakes that need to be avoided in the future.
- 9- Preparing the nation and the brothers for future wars and confrontations.
- 10- Winning sympathizers and increasing the popularity of the Mujahidin with every successful

operation.

11- Forcing the regime to change their policies.

12- Shaking the trust and the confidence of the members of the regime. It could also cause clashes between the military and political powers in the country and cause disagreement among the political parties.

The cons of the attacks in the cities:

We ask God to make them very few. But we list them so we know to prevent them.

- 1- The killing of Jihad leaders and members once these attacks are discovered.
- 2- Lots of human and material damage.
- 3- Lowers the morale of Mujahidin in cases of failure. This is why a good leader raises the morale of his people in any case.
- 4- Gives the regime chance to take advantage of the situation and harm innocents.
- 5- Raises the morale of the members of the regime when they win the battles.
- 6- Some members of the Jihad can be captured and secrets could be uncovered.
- 7- Weakening in the trust between the Jihadi groups and the society in case of repeated failures.

After talking about the attacks in the cities and their pros and cons it is time to talk about secure and safe communication methods between members and groups. I ask God grant us success.

Pages: 27 – 32:

Dead Box communications includes the following:

- Definition of the method.
 - Requirements for choosing dead box.
 - Locations.
 - Benefits.
 - Problems.
 - Security.
 - Materials that can be dropped in the dead box.
 - Loading and unloading.
 - Signaling.

Poem

They say apologize

By: Sabir Al-Na'uri

They say apologize for what happened. I answered, what happened?

Wasn't our blood shed for no reason?

Weren't we surrounded in our cities, streets and villages?

Who destroyed the mosques and took them over?

Who destroyed the cities over us?

Who killed the prisoner while they were shackled?
They killed people while they were worshipping
And spread to our youth bad morality
They taught them against the teachings of our prophets
Loyalty became first to their party and they denied the faith

They say apologize for what happened. I answered, what happened?
I am not the one that left the borders and went back as a loser
They announced victory and came back as winners
I did not threaten our enemy with words
I was not defeated by the enemy and later declare myself as a hero

Page 33 – 36

Security and intelligence

Media and the resistance activity

By: Sayf Al-Adil

Public opinion

The nature of the public opinion is the opinion of the majority towards an issue that is of interest to the public at a specific time. Public opinion is based on the sociological elements and events that are affecting the society and resulting in teaching the society of the current structure.

1- Kinds of public opinion

- A- Stable: exists in the primitive societies, where the opinion of the priest or the Shaykh of the tribe is the controlling point view.
- B- Unstable: is usually in the industrial societies, where there is always a dialogue and debate.

2- Territory:

- A- Global: in cases that affect the international public opinion like drugs, pollution, human rights and terrorism.
- B- Regional: an issue that affects the people in the area such as the Palestinian issue and the Middle East.
- C- Local: an issue that effects people in a country like the Kurds
- D- Professional: an issue that affects a profession such as farmers, commerce and lawyers.
- E- Section: an issue that affects a section of society such as soldiers, youth and women.

3- Continuation:

- A- Consistent: in an issue that takes a long time and that is hard to solve, like the Jewish presence in the Middle East.
- B- Temporary: is a passing issue such as a plane crash or an accident.

4- Secretly or publicly:

- A- Public: in western societies where the freedom of speech and opinions are openly expressed in newspapers, TV and demonstrations.
- B- Secret: is in societies that are suppressed. And opinion is usually expressed in secret meetings or publications. Usually things boil until they explode.

5- Affects on / Affects by:

- A- Public opinion is shaped by leaders, scholars and intellectuals because of their abilities, tools and effective authority in society.
- B- Educated public opinion: when people are educated to a degree that allows them to see information in the media. This section is always the target because it is the mover of societies.
- C- Controlled public opinion: is practiced with the uneducated population because they are far away from sources of knowledge. Their opinion is shaped by the educated and this is the widest section of the society.

6- Components for public opinion:

- A- An Issue that interests the public (issue)
- B- Issue at specific time (time)}
- C- A dialogue about an issue (dialogue)
- D- Goals of a dialogue (goal)
- E- Point of view of the majority (Point of view)

7- Signals of public opinion:

- A- Positive signals: are in the revolutionary societies that has been oppressed and it leads to revolutions, coups and secret resistance.
- B- Negative signals: are in countries that have some level of freedom like journalism, demonstrations, posters, rallies, request for resignation and requests for new elections.
- C- Signs of defeat: are in the cases where the society is oppressed and the expectations are low. This misery will lead to the fall of the regime like in the case of the Soviet Union.

8- Methods for measuring the public opinion:

- A- Referendum: is a way to know the public opinion on an issue by questioning the public.
- B- Scanning: by meeting the public and questioning them about an issue. This includes a slice of the society and not everyone. This is the best way because it is a chance for direct input from the public.
- C- Subjective analysis: is done through papers, radio, TV and special centers. In some countries administrations can fall as result of the public opinion opposition. This method is totally accurate and does not represent the public opinion.

9- Components of the public opinion:

- A- Ruling regime
- B- Media sources

- C- Speeches by leaders, scholars and intellectuals.
- D- Education and level of morality.
- E- Rumors
- F- Education and religion in society.
- G- Sudden events like; catastrophe, natural disaster and military defeat.

10- Elements that can affect the public opinion.

- A- Natural elements like; temperature, weather and geography.
- B- Economical, political and social affects

11- Methods for changing the public opinion:

- A- Repeating: by repeating the point of view over and over through the media.
 - B- Displaying the facts: rumors cannot be discredited without showing the facts.
 - C- Shifting the public direction: by shifting public attention to a different subject.
 - D- Igniting emotions: by stimulating the feelings of the public to win their sympathy on an issue. For this to be successful it need to be backed by facts.
 - E- Rumors: make people pay attention to an issue that was ignored before.
-
-

Closing

My dear brother,

Any kind of knowledge that is not studied and practiced is going to disappear.

When a person pays attention and reviews that knowledge he becomes more solid and strong. This applies to military knowledge that the Muslim uses against his enemies and infidels.

What we mentioned in the previous editions of the Al-Battar Training Camp requires study and memorization on a personal and group level. You need to be always ready to fight the enemy and raise the banner of Islam.

Remember what the prophet has said, “who ever learned to fight and then abandons fighting is committing a sin”
